- **Robust locking devices**
- **Low maintenance - no sanding or painting.**

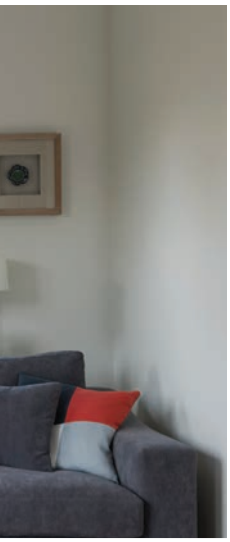
Your property is so much more than just a house, it's your home. So when you want to capture the look of a traditional vertical sliding sash window, our PVC-U windows are the perfect solution.

Manufactured to maintain the elegant proportions of traditional sash windows, whilst incorporating the very best of modern day technology, our system enables you to enjoy the low maintenance and high security of PVC-U without the problems associated with timber sash windows. Your new windows are guaranteed for 10 years as they are manufactured from the highest quality materials under strict quality controls.

Our windows feature tilting upper and lower sashes for ease of cleaning, low line beads and gaskets for improved sight lines, energy efficient glass to reduce your heating bills, and above all they are quality assured for your peace of mind. From a terraced house to a stately home, our vertical sliding sash windows ensure that your property retains its character and charm. You can choose from a wide range of styles, colours and hardware options to complement your home perfectly.

Our vertical sliding sash windows ensure that your property retains its character and charm.

Install beautiful windows that blend seamlessly into the surroundings.



TRADITIONAL WINDOWS THAT LOOK LIKE THE ORIGINAL

Bring elegance and style to your home.

The aesthetics of many buildings have been tarnished by inappropriate window replacements that ruin the character of a property.

Our windows enable you to install new windows that blend into their surroundings - city or countryside, commercial or residential. Our heritage vertical sliding sash windows are perfect for conservation or traditional projects, a classic look with modern advantages.

Sculptured Georgian bars, sash horns, two sliding sashes and a choice of hardware, together with a selection of beautiful finishes, all add to the traditional feel of these beautiful windows.

Choose from the classic White PVC-U, or a range of options including Golden Oak, Cherrywood, Irish Oak, Cream and White woodgrains, see page 10 for the full range.

Robust locking devices ensure your home is secure.

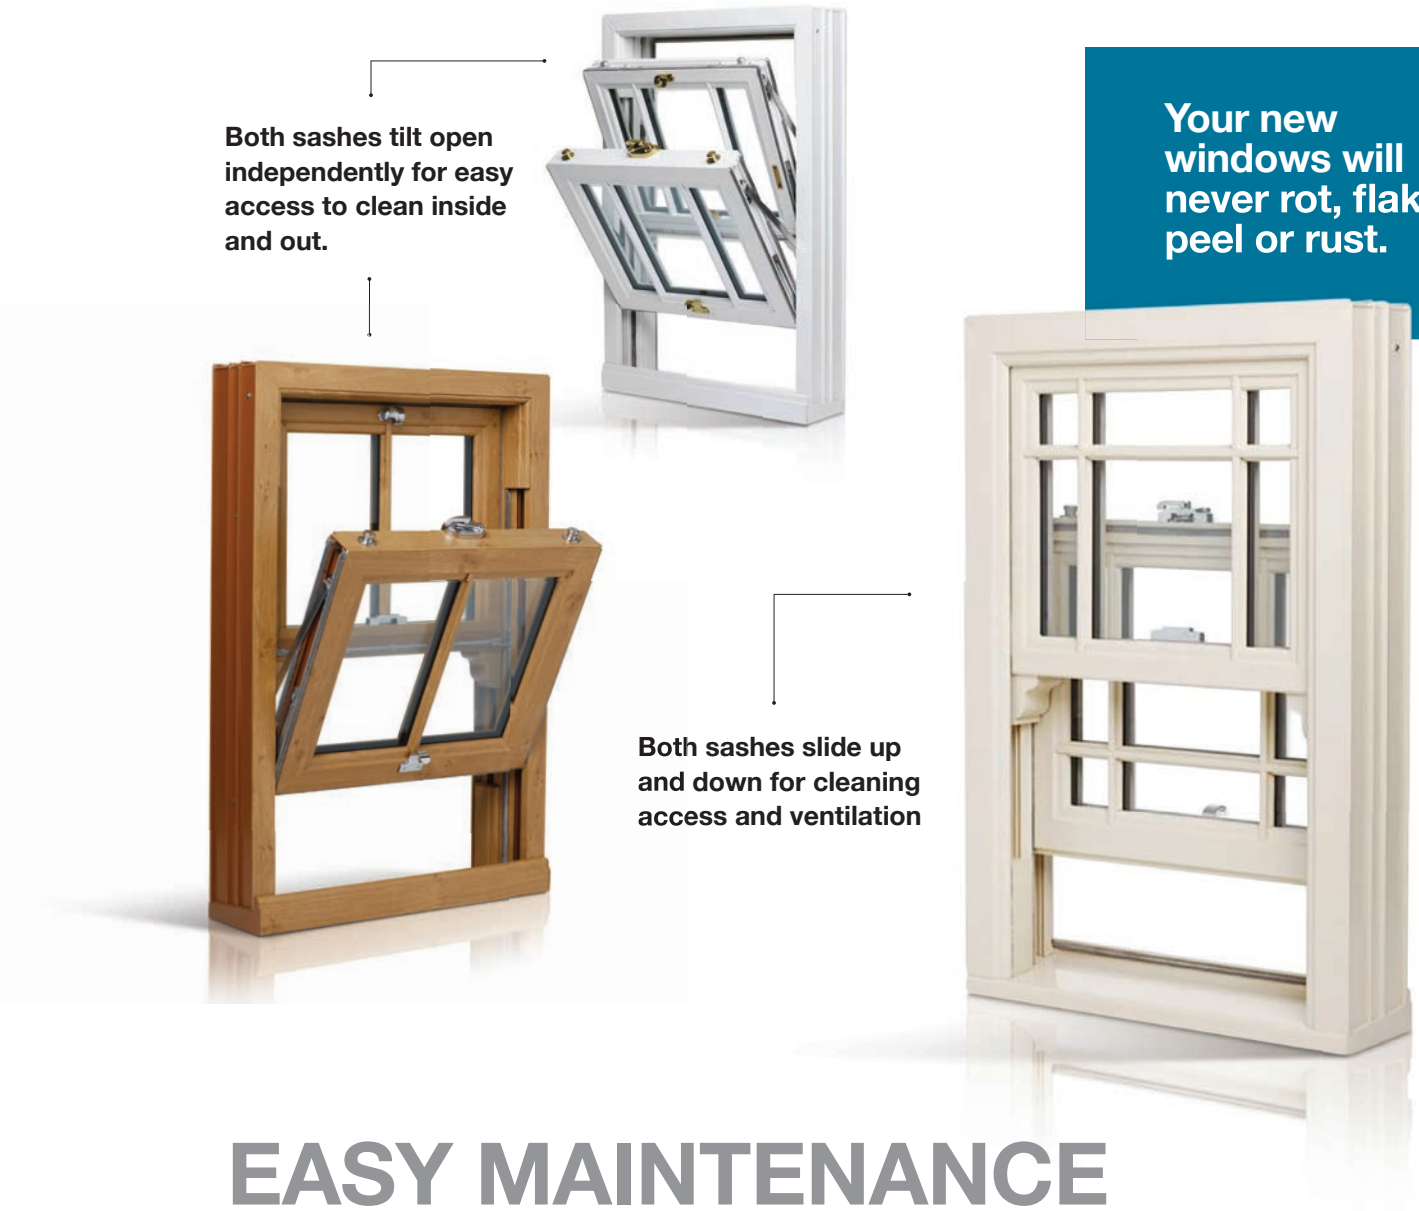
Lock

SAFE AND SECURE WITH A BEAUTIFUL FINISH

Giving you peace of mind.

Our vertical sliding sash windows are not only elegant and authentic; they are uncompromising when it comes to security.

Vertical sliding sash windows are fully reinforced with galvanised steel. This strengthens the sashes to prevent deflection in windy weather and provides a strong secure fixing for handles, latches and other components. The high quality balances maintain the equilibrium of the sash window at all points of travel and robust locking devices ensure your home is locked up tight. For added security an anti-jemmy aluminium bar is available. All of this gives you improved strength, greater safety and comfort in the knowledge that your windows are built to last.



Both sashes tilt open independently for easy access to clean inside and out.

Both sashes slide up and down for cleaning access and ventilation

Your new windows will never rot, flake, peel or rust.

EASY MAINTENANCE AND CLEANING

No more sanding and painting.

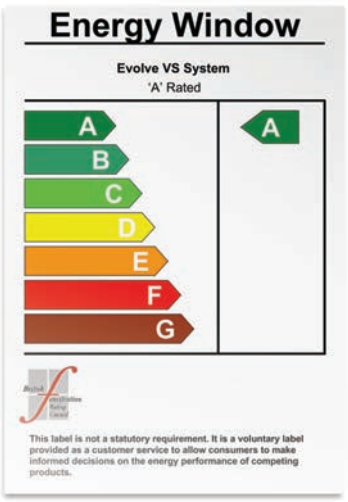
You can now avoid the need for costly cleaning chemicals, varnish and paints.

Thanks to the benefits of PVC-U, your new windows will never rot, flake, peel or rust. They will simply require an occasional wipe down with a damp cloth.

The PVC-U vertical sliding sash windows not only slide up and down like traditional windows, but tilt inwards so that the panes can be easily accessed making it easy to clean your windows from the inside.

ENERGY EFFICIENT AND ENVIRONMENTALLY FRIENDLY

Recyclable, lead-free and energy saving.



Today's window designers have a challenge on their hands. Not only do they need to design windows to keep out the weather and let in the light, but they also have to consider the environmental impact too.

Our windows are lead-free and carry an A energy rating as standard, with Low-E double glazed units to keep the heat in, and help reduce your heating bills. The windows also have brush seals around the openings to prevent even the slightest of draughts. Choosing PVC-U over timber is an environmentally friendly choice - nearly all of our PVC-U windows can be recycled over and over again to produce new windows.

By purchasing our vertical sliding sash windows you are not only keeping your home warm all year round and reducing your heating bills, but also helping the environment.

Brush seals around the openings provide exceptional draught proofing.

FINISHING TOUCHES TO PERSONALISE

A choice of colours, hardware or styles.

Every window we manufacture is made to order. Every home and personal taste is different so we can offer you a wide range of styles, colours and hardware to ensure that your new window will suit your property perfectly.

Our vertical sliding sash windows are available in the colours below. The foiled finishes bring windows to life with a glossy, freshly painted, realistic wood effect, so good you can hardly tell the difference! There is also the option to have your windows in white on the inside and foiled on the outside.

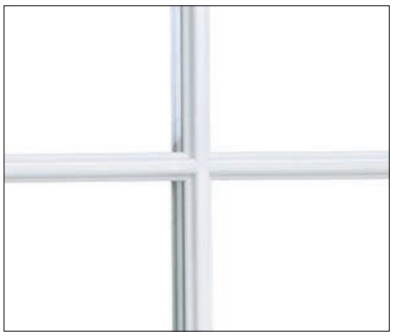
- Grey on White*
- Black/Brown*
- Black/Brown on White*

Hardware

High quality balance weights and hardware are fixed to integral reinforcements for reliable and smooth opening time after time. Hardware is available in White, Gold, Chrome and Satin Chrome.

Style

To achieve a traditional look without the need for individual units of glass, our vertical sliding sash windows offer a choice of internal/external glazing bars. Run through sash horns provide another decorative option for a truly authentic look.



The colours shown are designed as a guide only, before making your final decision, please ensure you have seen a foil swatch.
*Extended lead time applicable on some Artisan colours, contact us for details.
Colour information correct at the time of printing but subject to change.

SHAPES AND STYLES

Windows to suit every home.

Our vertical sliding sash windows can be manufactured to a style that suits you. Here are a few examples of the bar layouts available. Our windows come with equal sized top and bottom sashes (50/50 split) as standard, however we are able to manufacture other split ratios at your request (minimum transom drop of 350mm).
