FlushSash

The latest innovation to come from pioneering **Halo**, a brand of The **VEKA UK** Group

Reminiscent of early 19th Century timber windows, FlushSash from Halo combines elegant Georgian style with the modern technical benefits of PVC-U to offer smooth style and seamless performance.

As you would expect from any Halo product, FlushSash is extremely attractive, highly energy-efficient and provides optimum levels of security for homeowers.

Designed to maximise the efficiency and flexibility of Halo's existing System10 and Rustique window systems, FlushSash allows fabricators and installers to extend their product range with minimal additional stock holding and tooling requirements, to offer an effective flush casement window for the traditional and heritage timber window market, where authentic replication of the original style and finish is required.

Features:

- Achieves U-value of 1.3 W/m2K
- Achieves WER A Rating (with 28mm double glazed IGU using float glass)
- Accepts chamfered or sculptured sashes
- Accepts double and triple glazed IGUs
- Manufactured from standard Halo profile – System10 and Rustique compatible
- Minimal tooling set-up
- Maximum sizes for opening sashes (mm) – up to 1250w 1250h (Top Hung) / up to 1350w x 700h (Side Hung)
- Mechanical or welded transoms and mullions
- Choice of chamfered or sculptured Georgian bar enables recreation of original timber styles
- Standard installation procedure
- Accepts all standard hardware

Colour Options

The **FlushSash** is available in nineteen colours. Each colour and woodgrain has been designed to replicate the look of traditional stained or painted timber and requires little or no maintenance other than an occasional wipe with a damp cloth.

Customers can also choose different finishes for the inside and outside of their property. For example, they may choose a warm timber effect, such as Oak, for the outside and opt for clean, bright White for the interior.

White | White Woodgrain | Cream | Silver Grey

Basalt Grey | Slate Grey | Agate Grey | Anthracite Grey

Black Brown | Siena PN | Rosewood | Cherry

Irish Oak | Wine Red | Dark Red | Dark Green

Moss Green | Chartwell Green | Steel Blue

1.3 W/(m²K) U-VALUES

Indicative U value achieved using a 28mm double glazed unit - delivering high energy efficiency and big savings on energy bills.

WEATHER RESISTANT

FlushSash delivers outstanding weather resistance and performance.

WER A RATED

FlushSash delivers energy efficient A-rated frames with an indicative WER rating of A+6 using a 28mm double glazed unit.

SAFE AND SECURE

Outstanding security features come as standard with **FlushSash**, with a performance to BS Security enhancement standards.

MULTIPLE COLOURS & WOODGRAINS

FlushSash frames come in a range of 19 colour options designed to look like stained or painted wood.

Additional Features

FlushSash is available with a choice of heritage details, including decorative 'monkey tail' handles and ornamental peg stays to give your customers the feel of a genuine traditional timber window.

Every window offers robust security features, including multipoint locking and industry-leading hardware in the form of key-locking handles. A multi-chamber construction ensures impressive structural strength, providing the highest standards of security for your customers.
